# Are Communists Entering U.S. Disguised As "Refugees"?

On all sides people are asking—how about these Hungarian Refugees? How many are good—how many bad? We have heard many reports, none official, for no official report can be made or dare be made, but after talking to a number of people who have been at Camp Kilmer, the reports are very alarming—indicating that a very large number of the refugees are Jews, the percentage running from 40% to 70%.

Several people from whom we have these reports are in positions to give reliable information. One official said they were having difficulty in securing sufficient number of people to translate Yiddish.

On the night of Friday, Dec. 21st, two Military Air Transport Service planes were unable to land at Fort Dix, N.J. due to a very heavy fog, the planes were rerouted to Newark Airport, where they made a safe landing. Later 6 Army buses transported the 114 refugees to Camp Kilmer. Three persons of the staff of COMMON SENSE were at the same airport, and from all observations and appearances, at least 65% of the refugees were Jews—and surprisingly well dressed at that!

Naturally, the highly organized Jewish Agencies—HIAS and the American Jewish Committee are well organized and alert enough to prevent the public from realizing that they are so successful in circumventing the McCarran-Walter Immigration Law.

The first plane load of refugees to arrive in America carried 60, the papers slipped up by stating that 24 were Jewish. There is no way of knowing exactly how many Jews have arrived for many years. During FDR's Administration, the Justice Dept. changed the procedure so that it is not permissible to ask any refugee if they are Jewish. This covered up for the swarm of Jews who came to the U.S. when Germany began war on the Communists. The Jews today come in as French, German, Polish, etc.—and as the Jews control our immigration machinery in Europe, they can and do use up the largest part of the quota.

For years following World War II, our immigration machinery in Europe, and particularly in Germany, made it very difficult for people opposed to Communism to come to the U.S. but the red tape was removed for those who favored Communism. Groups who were known to oppose Communism were urged to go to Australia. Is the immigration authorities in Austria now being bluffed and directed by Marxist Jews?

The Newark Star Ledger, of Dec. 23rd, quotes three freedom fighters from Hungary, who were in Austria for 10 days, as stating that certain men in charge of the questioning, if slipped \$25.00 in American money, would see that you receive a visa in two days, otherwise people would have to

wait for weeks or never get a visa at all. They said the greatest shock of all was to see visas bought not only by refugees who were not freedom fighters, but who were not even Hungarians!

The N.Y. Daily News of Dec. 18th, carries a report of a talk that Sen. Herbert Lehman made before the Women's Div. of the American Jewish Congress at the Waldorf Astoria. Mr. Lehman told these Zionist women that provisions in the McCarran-Walter Act to prevent Communists from coming into this country were "booby traps" and he was happy they were being disregarded in dealing with the Hungarian refugees and that we should drop these provisions entirely from our immigration law.

Congressman Francis Walter of Penna. went to Austria immediately after provisions were made to admit refugees to the U.S. and had been supervising the work. Several days ago he returned to the U.S.—now it would be very interesting to know

One of thousands of Communist Jews who came to the U.S. as "poor refugees" when Germany got rough with Communists. Eisler was head of the Communist underground here for 12 years. With deportation staring him in the face he escaped on the Polish liner Batory, and now is Propaganda Minister in East Germany.

## NO CHRISTIANS AVAILABLE?

The COMMON SENSE staff living here in the Metropolitan area among approximately six million Jews know that the entire Jewish vote went for Adlai Stevenson—no doubt all informed people are aware of this.

However, the Jews apparently still control IKE, who said in a speech in Los Angeles during the 1952 campaign, "For many years I sat at the feet of Bernard Baruch and listened to his words of wisdom." Eisenhower has appointed J.D. Zellerbach as Ambassador to Italy. The appointment must be approved by the U.S. Senate but that is regarded as a certainty, and why not? Here are some of his qualifications:

Member of United World Federalists, who are out to junk our Constitution and set up World Government.

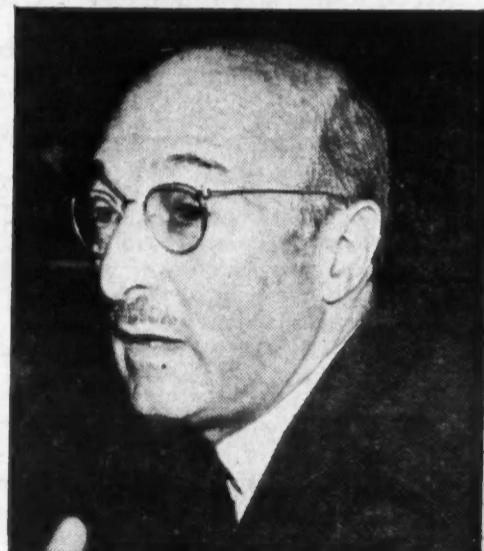

Fund for the Republic, which finances anti anti-Communists and other Marxist movements.

Committee for an Effective Congress that spent several million to destroy Sen. McCarthy's crusade against Communism.

Institute of Pacific Relations, which was packed with Communists.

He heads the \$450 million Crown-Zellerbach Corp. His brother, Harold, is a member of the executive committee of the Union of American Hebrew Congregations.

Best of all, he is a Zionist Jew like those who fill practically all important administrative positions in our Government and as further evidence that Zellerbach should be

James D. Zellerbach

confirmed, we submit, there is not a single Christian in the one hundred and sixty seven million people in the U.S. who is qualified. As with Anna Rosenberg, who was placed in the Dept. of Defense, in charge of hiring all man-power for over 115 Government departments, there was not a Christian man in the U.S. who was smart enough. (WHO DID PROMOTE PERESS?)

The American Legion and many other good Americans oppose the appointment of Zellerbach, but despite this, the U.S. Senate will confirm him. (Due to Jewish pressure) Simon E. Soboloff, the Russian born Jew,

## REDS ENTERING AS REFUGEES

—(Continued from page one)—

just why Cong. Walter has been prevented from reporting directly to Pres. Eisenhower until Vice Pres. Nixon could return from his hurried trip to Austria and make his own report.

From reliable reports it is believed the Zionist organizations caused Pres. Eisenhower to send Nixon to Austria instructed to return with a report that would propagandize the Administration into further increasing the number of refugees. Five thousand was the number originally set, then it was raised to twenty-one thousand.

The N.Y. Telegram of Dec. 26th, carries a leading article covering Nixon's report. This article states that Pres. Eisenhower will now ask Congress to greatly increase the number and accept refugees from Poland, Czechoslovakia and other countries as well.

We are faced with a situation where approximately 3% of the population of Hungary are Jews, yet the number of incoming Hungarian refugees we are receiving, are apparently 50% Jewish.

## There's Something Fishy About This Revolt

The Jewish organizations which have been fighting the McCarran Walter Act from the start, are using the Hungarian situation to sweep us off our feet, and some of our un-informed people do not realize these Hungarian Jews are escaping from the real freedom fighters. Jews, knowing they are unwelcome in all Europe, have at last found a loophole by which to enter the U.S.

N.Y. Russian language Jewish papers this week, state Jews from Poland, Estonia, Latvia and Lithuania are flocking to the Soviet Union in large numbers, due to the fact that as the Communist discipline relaxes, the non-Jewish population vent their hatred on the people who have been living off of them.

Is this the way we are going to defeat Communism—by bringing in millions, many of them street fighters and trouble makers. And what is to become of the courageous people who remain in those countries to actually fight Communism?

We can welcome real Hungarian people when they are properly screened and found clean of Communism, but the Jews will only add numbers and strength to our enemies here in the U.S. where we already have a battle on our hands. Reports are already trickling out of Camp Kilmer that Hungarian freedom fighters have recognized several Secret Police at the camp. We read about the legless man who came 6 miles through the mud—but just ahead of him may have been 50 Communist Secret Police with their wives and children.

We are informed by reliable sources that immediately following the fall of the Marxist Government in these Communist countries, the population will turn on the Jewish people, for they certainly know who has been ruling them. As told to us by an intelligent Russian who lived under Communism in the Soviet Union for 25 years, "if Communism falls, every Jew in the Soviet Union will likely be killed." This gives you an idea of the intense hatred for the Jews by people who have been under their rule for 39 years. Jewish propaganda agencies in the U.S. are continually releasing items to the press leading our people to believe that the poor Jews are being persecuted and thus trying to escape from Communism.

During World War II, hordes of Jewish immigrants flooded the U.S. and their effect can certainly be felt, for the Jews here now are arrogant and aggressive and have a very strong hold on our political machinery in our cities—particularly in Washington. Are we to have another swarm of Reds, and pinks to pollute the blood stream of our country? What about the millions in China who would like to escape Communism that was forced upon them by our State Dept.

It is nothing new to informed people that of the 28,000 Secret Police in Hungary

## ANTI-DEFAMATION LEAGUE

of B'nai B'rith

515 MADISON AVENUE, NEW YORK 22, N.Y. PLaza 1-1800

November 20, 1956

Dear Friend:

I am writing to you as a reader of The ADL Bulletin. Through its pages we have been able to bring you the newest developments and ideas in human relations.

There is a limitation, however, to the written word. We have reported in The ADL Bulletin how the dramatic mass media help bring understanding of democratic ideas to millions. But there is nothing like seeing for yourself. I am therefore taking this unusual method of inviting you to experience with me the great impact which the mass media can make upon the American people with the message of freedom.

On November 25th, we plan during the annual meeting of our National Commission, to televise "Tragedy in a Temporary Town," by Reginald Rose. In our view this is the finest example of what the television medium has done in the past year to promote democratic concepts and we are therefore presenting it the ADL's 1956 TV award. "Tragedy in a Temporary Town" was first shown on the Alcoa Hour over the NBC network and received the Robert Sherwood Award of the Fund for the Republic. It tells the story of the flaring-up of mob rule in a tense race situation and how decency finally prevails.

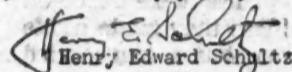

During the hour show (Sunday, November 25th, 2-3 P.M., Eastern time on NBC-TV) the 1956-57 America's Democratic Legacy Awards will be made to Senator Herbert H. Lehman, Secretary of Labor James P. Mitchell, and Mayor Charles P. Taft of Cincinnati, Ohio. The telecast will permit you a glimpse into the proceedings of our annual meeting. I hope you will take this opportunity to look in on us.

The other day, through the good offices of Barney Balaban, president of Paramount Pictures who for more than 30 years has been among the national leaders of ADL, I had an opportunity to preview Cecil B. DeMille's spectacular film, "The Ten Commandments." It is great entertainment. But I would not be writing to you about it if that were all it was.

I came away from "The Ten Commandments" feeling that it was the finest film presentation I had ever seen of the basic Jewish contribution to the struggle for freedom from oppression and slavery. Moses, first as Prince of Egypt and then as the son of Hebrew slaves, in whom burns the spirit of God and the love of justice for all mankind, emerges as a Jewish figure of heroic proportions.

Millions who see "The Ten Commandments" must come away deeply impressed with an image of the Jew as the progenitor of our basic ideas of freedom, democracy and social justice. The film, I believe, will make a vitally important contribution to better understanding of Jews by our fellow-citizens. For that reason and because of its timely significance in these troubled days, I know you will want to see it and to get your friends and neighbors to see it.

Sincerely yours,

Henry Edward Schulz

It is interesting to see the intense interest of the Anti-Defamation League (Jewish Plotters) in promoting the recent film "TEN COMMANDMENTS."

nearly all of them are Jews, and of the total six hundred thousand Secret Police in all Communist countries, 60% are Jews.

Here at COMMON SENSE we receive all leading Jewish publications and they are now screaming for our government to bring in the Jews from Egypt, where even the Chief Rabbi, Haim Nahum of Egypt states emphatically that they are not and have not been bothered. These Jewish publications want sympathy for the Jews in Egypt whom they claim are being deported. Demands are being made that our State Dept. intercede, but how about the nine hundred thousand Arabs who were driven from their homes by the Jews 9 years ago and still exist like animals in the desert. These people are also human.

May our Lord give understanding and courage to sufficient number of Christian people in the U.S. that we may have the wisdom and back-bone to prevent our country from being demoralized and broken down as other countries have at the hands of these ruthless, Marxist anti-Christians.

action the first time at the storming of the Soviet City Hdqtrs. As you probably followed events in the papers you will know what all transpired.

By the time the Nationals definitely had the upper hand, only 4 of our boys, including myself, were left. The others (13) we had to bury just near where they fell in the street of fighting. We were just beginning to get organized within the frame of the National Students Battalion, for up to then every bit of fighting was done spontaneously and without central over-all directive when the bloody night of the 4th and 5th of Nov. broke. On the 11th of Nov. our unit (we had formed with students and workers) had to give up the strong point we held because Soviet Tanks had gotten around our city block. We retreated through cellars and the drainage system to another part of town, joined up with another National unit and held on with them until the 15th. We were then forced to break into little groups and retreat into the hills west of Budapest. Its too close still to write you details and I must first thoroughly realize that this is — again with no houses crashing down around me under shell fire and get accustomed to think about two of us only and get over the fact that 15 of us are buried in the rubble of the city we already had thought to be Christian National. I cannot and will never believe that all that blood was shed for nothing. I will not believe that the West will not finally acknowledge the sacrifice and react to it by really helping these heroic people who once more have become the bulwark of Christianity against the pagan threat from the East.

Its become bitter night again in Hungary, firing squads, torture and deporta-

## A LETTER FROM HUNGARY

THE FIGHTING WAS REAL FOR THE PATRIOTS BUT—WAS IT PLANNED THAT WAY?

Dear Conde:

Its a long time since I heard from you and much has happened since. I came back out of Hungary only a few days ago. Went in during Oct. with what was left here of our group, as we knew of course what was shaping up. We had reached Budapest a day before it broke and saw

tions. A wonderful people are being torn to pieces before the eyes of the "civilized" world. What's left of us must first regain our belief in the actions and principles of the West, and of course we know that Hungary and its people were sacrificed upon the alter of World Jewish interests.

But God sees the blood shed and it talks louder than the explanations and excuses cowardly selfish politicians are now planning before the deceived western people. God's judgment will not fail.

Our retreat to and coming from the Austrian border to "safety" (as if there still is such a thing) would fill pages. Marching, fighting, the same over and over until the border was before us with no Soviet forces between it and us any more. We slept where we dropped, handing over our now useless arms to Austrian military. The breaking apart here of what in only a few short weeks had become a close terribly effective fighting unit, and now one man and myself here in the old quarters where the souls of the 15 pals buried in

and between there and the border come to keep us company. But God will lead us out of this fog of the mind, out of this feeling of disappointment and spiritual tiredness. We know He will send us light again so that by it we may truly understand why all happened as it did.

**Please Pray, Pray For Us.** That no matter what our bodies had to and still may be subjected to, that our souls be made whole again. Pray, pray, pray that the devils may not succeed in smothering the light, that strength may be given us to fight our way out and upward out of this bitterness in which our souls are floundering. We need your prayers as never before.—We two who are alive, and those who died for us and for all of you in the Faith. God bless and keep you safe. I am as ever.

## Irregularities In Our C.I.C.

By our on the spot observer

CIC (Counter Intelligence Corps)

CIA (Central Intelligence Agency)

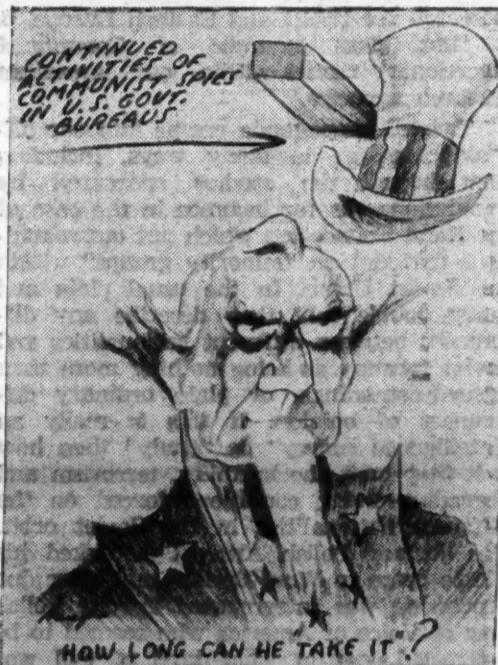

MIS (Military Intelligence Service)

About three years ago two American born CIC agents of Regensburg, visited the local MIS unit to initiate loyalty checks on one of their newly assigned members. What they found generally typified the MIS units everywhere: a Polish born Jew Lt., in charge of a unit made up entirely of newly naturalized aliens that, after finishing their basic training, were assigned to military intelligence as "foreign language specialists". What stood out as a shock was a letter of commendation the Lt. produced to prove the loyalty, integrity and character of one of his men. The letter was from the Augsburg, Germany, CIC Region house declaring that up to the time he emigrated to America in 1949, he worked as interviewer interrogating and processing DP visa applicants for America.

This would naturally be denied with some explanation that DP's might have been used as interpreters, but never as interviewing agents. However, nobody can deny the fact that the DP's of Augsburg spent their whole time there black marketing, pandering, changing money illegally for the Russians, and peddling off methyl alcohol booze and narcotics to our troops. Also, anyone with access to the counter-intelligence files of Augsburg, would find in them a cheap useless line of denunciatory rumors of the same type collected by Soviet Secret Police informants which were in fact, collected and reported by these same low level DP's before their immigration to the U.S.

The question comes up that if such gross irregularities exist in the intelligence services, why aren't they corrected by the officers in charge. Major General Trudeau recently investigated and wrote his findings on a written report with appropriate recommendations for an efficient and useful service and found himself mysteriously transferred to a walking post in the Pacific.

Most all the fantastic blunders and irregularities of every description get by because of the secrecy of such operations as "security precautions" and also by some downright dishonesty of certain officers who would like to protect this line of service as a comfortable and happy deal. An article in the Saturday Evening Post of 6 June 1953, described one of the political murders that took place in the post stockade of the strategic interrogation center of Oberursel in Taunus, near Frankfurt Germany. One mistake in the article was that the Oberursel MIS unit shut down after this incident. They did shut down—but only for a couple of weeks, until they were sure of no high-level G-2 or Senate investigators prowling around after which

they reopened and went back in full swing operations. When the article appeared in the Post, all the Staff officers of Oberursel met together and figured out the usual list of cover stories to have on hand in case any higher level wheels should come around to ask questions. However, at the same time one German refugee from the East German army was being given a Russian NKVD type of interrogation in the same stockade. Everyone in the military interrogation was happy when this one German came to Oberursel inasmuch as he came at the time when Russia had given T-34 tanks to the East German army, and this was the first opportunity to get information on armored order of battle in Eastern Germany.

What happened in the end was, after so many cross-fire interrogations by day and night, to try to prove him in reality a spy and not a real armored man, the Americans didn't find out anything at all about East German armored tactics, but they almost had another murder on their hands, in the form of a Russian NKVD provoked suicide, when the stockade guard heard moaning from the German's cell and found the German hanging from a bedsheets improvised noose. How did this happen? Through a German language interrogator, a Sgt. first class George Trofimoff, who came from the Soviet Union in 1948, immigrated to America in 1949, and is now top secret spook who will try to prove that any really useful source of information is in reality a fake, a phony and possible spy. What proved beyond a shadow of doubt that nobody really was serious in believing that this man was a spy or agent sent over by the Russians was, that no CIC counter-espionage or security agent was ever called in to check on this man and nothing was committed to writing as a report of this

was appointed as U.S. Court of Appeals Judge, after being held up in two sessions of Congress. Sobeloff, a Vice Pres. of the Zionist organization, the American Jewish Congress, was confirmed by the Senate on June 29, 1956 and will serve as Federal appeals Judge in Virginia, Maryland, West Virginia, North and South Carolina.

affair except for a pencil scratched note of a Capt. Czarnik to a member of the U.S. Army Europe G-2 staff, that he would report verbally about the suspicious nature of this one German.

At the same time any agents discovered within the ranks of the MIS are always given kid glove treatment and special handling, plus various cover stories dreamed up to soft-pedal the whole issue. No better case of this could be pointed out than the case of Michael Rothkrug (Jew), a German-born naturalized alien in charge of the document section of the MIS unit of Berlin. He was investigated by CIC agents after he carried over several cases of documents to Communist agents in East Berlin and brought back 500,000 German marks worth of narcotics for our troops in Western Germany black market circles. His trial naturally had to be secret for security purposes, which is a nice way of hushing things up. One of the character witnesses for the defense flew in from California where he was in the motion picture business, and testified that it was perfectly normal for Rothkrug to bring military documents to his downtown apartment, because of the souvenir value of such documents. In fact, he testified that he himself had the complete set of documents pertaining to the battle of the bulge of World War II. Rothkrug was handed down a minimum sentence of four months suspended sentence provided he return to the U.S. from Germany. This makes an interesting study on the subject of American citizenship. A naturalized alien goes out of his way to prove his loyalty to the Soviet Union as a Dept. of the Army civilian on a trusted position in sensitive duty status, and instead of revoking his citizenship he is practically exonerated if he chooses to return to the America that he holds in contempt. One of the investigating officers in this case said it was a good thing this happened because through it we became more security conscious and security precautions were tightened.

Allen Dulles also declared that espionage within the CIA setup is impossible because of the system of compartmentalization,—every agent being assigned only one detailed specific part of an overall mission. All of these agencies are interwoven in a huge fantastic bureaucratic maze on the cold war front overseas, CIA, Army CIC and MIS units, Radio Free Europe, Voice of America, etc. If these agencies have a fool-proof system of operating securely, then how explain all those cases, as for instance Sgt. Katz, of the 501st MIS in Bayreuth, running over to the Russians for asylum; Jiri Kalas, of the Nuernberg Interrogation Office of Radio Free Europe running over to the Czechs for asylum; Special Agent Wolfgang Hoeffer of the Berlin CIC blowing his brains out with an army pistol in connection with the sensational Otto John case; and more recently yet, the case of the one trusted agent of Wuerzburg running over to East Germany with two safes of classified documents?

The East German Communists are having a field day at the present time publishing these documents in newspapers bit by bit, in such a calculated way to prove point by point that those Americans are sneaky and also are planning an all out war on

—(Continued on page four)—

IRREGULARITIES IN OUR CIC

—(Continued from page three)—

central European soil just in case anybody there should be dissatisfied with the present Communist regime. This Wuerzburg safe deal was so sensational that the combined intelligence network was forced to completely reorganize their setup. However, no one was nearly so anxious to protect themselves from Soviet espionage as they were anxious to protect themselves from higher level wheels who might demand an accounting point by point of all the factors involved.

If it were really necessary to support an international spy network to protect us from Soviet intrigues, then why couldn't we have just internationalized the FBI services? The FBI is a real enemy threat to Communists everywhere with all their wiles and deceipts, and still no Communist has been able to find any compromising information on FBI chief Hoover or his men, or methods to use in smearing them, which is a credit to the FBI's fine record. The answer is simple, the Dulles brothers expect reports that Communists are all foreign citizens, and the FBI might embarrass the State Dept. by keeping a check on some of their own shady members and find out some nasty things about their foreign give-away programs.

In the later part of 1949, in the large Yugoslavian DP Camp of Landshut, in Lower Bavaria, some learned and patriotic men representing the Yugoslavian underground in the homeland, were negotiating with the local CIC office in a deal that was to keep the Americans supplied with information of the highest value, with some of the sources up on Tito's top staff. At this time the CIA was taking over such deals gradually, allegedly with the idea of streamlining channels to Washington and for greater security in handling information and information sources. In this case one of the CIC men reported to Paris to secret rendezvous points with torn off boxtops to match against someone else's box top and various other melodramatic and practically foolproof security precautions. Sen. McCarthy had accused the State Dept. of harboring Soviet agents some six months before, but no one in either the CIC or among the Yugoslavs seemed to take this into account and are still wondering today why is it that Tito practically holds a tighter grip than ever, and what kind of successful brand of counter-intelligence is it that keeps such a brother Soviet tyrant informed on who within his staff or his subordinates should be purged next.

Some Russians also contacted State Dept. men in 1950, with the mistaken belief that our representatives of the State Dept. were actually sincere in their show of anti-Communism. They tried to conclude a deal whereby they could assassinate Stalin and some of his key men to take over a free Russia, liberated from Bolshevik tyrants. They got a flat "no" which also proves more emphatically that the State Dept. intends to continue support of the legality, integrity, and sovereignty of the Soviet Union, in spite of certain worded protests and negotiating speeches made to give an otherwise appearance.

The Hungarians have also tried for several years to interest the U.S. intelligence agencies in their common struggle against Communism both within their Hungarian homeland by underground fighters and in exile by their patriotic groups, which incidentally, never asked for money but for moral support. They also learned that the pattern of operations of our intelligence people was not to get a clear-cut picture of any situation as it really stands, but rather to pick up cheap denunciation material, especially if it would sound colorful when written up in a report, and if it would cast some shadow of suspensions in an intriguing way without making any pinpoint statements by which the agent could be held accountable in any way.

The Top Secret Employment Guide of the old 66th CIC Group, which later was

the foundation of CIA investigations was a big mess of useless confusing details of "dissident elements" in the whole over-all intelligence picture. In this way these investigations are exactly to the point, the same as those made by Soviet Secret Police agents, inasmuch as dissident elements are very positive factors in maintaining control over an unwilling population. The general impression that somebody would get is that each small exile group is a squabbling bunch of cranks, broken down into a huge bunch of dissident organizations and parties. There are no partisan politics among refugee groups any more than would any bunch of Americans in exile from a Soviet dominated America argue over such things as the Taft-Hartley laws or States Rights.

No one can keep much track of intelligence agents of any country because their movements are shrouded in secrecy and cover stories of every kind. The way to check in detail their value, is to run through the results of their handicrafts, in other words, their intelligence summaries and special reports of every kind. The periodic intelligence summary "Countering Soviet Propaganda", by Dept. of State, Office of Intelligence Research, Div. of Research for USSR and Eastern Europe, is a first class example of Communist diversionary tactics within our American research agencies.

Twisted propaganda creeps into our different services in many ways, including even through the studies sponsored by foundations—as for instance in the case of the Rand Foundation which put out voluminous material on "minority groups" within the Soviet Union. In the usual plain and fancy double talk they describe any differences between different nationalities and Soviet tyranny as being nothing more than misunderstandings, or plain ordinary differences of opinion. If this is really an "intelligence survey" or "study" then how is it they omit the brutality, terrorism and degrading living conditions forced on the different nationalities in the Soviet orbit. One former Polish Army Sgt. risked his life to come to West Berlin—and after due processing was interrogated by one Polish Jew of Voice of America who seemed to be interested, not in what kind of evil was promoted by Communism, but rather in the subject of dogs and cats running around free on the streets. It finally hit the poor refugee with a terrible shock that this agent was actually taking him for a fool, to find out if he couldn't dream up some funny joke about Communism not being successful in providing a paradise, by pointing out how the absence of dogs and cats might show that the citizenry was forced to supplement their food rations in some drastic sort of way.

All Polish people are violently anti-Communist, the same as are all other Christian people who are victims of Communist terrorism. They always wonder day after day, when are the Americans coming to liberate them from Communist slave masters. But what better way could the Russians operate than through their Jewish spies and confusion agents putting on some sort of Voice of America show like this to answer their questions each time by letting them know that "the Americans are laughing at us; because of food shortages; government demands; silent torture and secret terrorism."

We need some more private citizens the same caliber as Eugene Castle ("Billions, Blunders and Baloney") to investigate something of the order of battle of our cold war front lines and report to the public on their findings. One of the many facts such people would learn is that all the anti-American papers in Western Germany were founded and financed by a Hans Habe, originally Jonas Bekessy, a Hungarian Jewish terrorist during the days of Bela Kun, (Cohen) who later escaped into Germany where he worked with the Communist Party of Germany until he was kicked out of that country when the Americans greeted him with open arms as being a bona fide acceptable refugee.

Through some mysterious strings pulled, Habe worked his way to full Colonel in Gen. Eisenhower's Psychological Warfare Staff during World War II. Some description of the psychological warfare activities can be found in Saul Padover's "Experiment in Germany"; however what was mainly interesting, was that in 1949, when John J. McCloy gave the Germans freedom of the press, Habe hustled all around the country and with a mysterious unlimited financial reserve as against most of the bankrupt native German editors and publishers, he set up a string of anti-American papers, the worst of which was "Oeffentliche Meinung," more vile and rotten than anything printed anywhere in Communist East Germany.

What was interesting to see was what exactly would the hush hush CIA boys do in this case to protect our good name in Germany, and the answer to that was nothing at all. In fact the CIA members assigned to investigate Habe were actually fascinated and excited about the whole deal because this would be so much more to put a little glamour or color in their line of duty. Also, by stamping "top secret" on their reports, they were naturally sworn to secrecy in this case in the name of "National Security" which amounts to actually protecting and covering the activities of such a subversive and criminal nature, carried out by American citizens.

Also, while we're on the subject of who specifically engineers and finances anti-Americanism in foreign countries, we bring to mind the latest of "disillusioned ex-Communists" namely the French-Jewish playright and spark-plug of the left bank Bohemian esoteric circles of Paris' left bank, name Jean Paul Sartre. This man Sartre, wrote the play for the violently anti-American film "The Honorable Prostitute" which showed Europeans how we Americans have nothing better to do with our time than to beat up, terrorize and brutally attack all people not of our same race, color and creed. Nice girls who behave well, dress well, go to church, live modestly and quietly were pointed out as being hypocritical, phoney, two faced, stuffy etc, and the heroine of the film, a real filthy prostitute, was really a nice girl because she was understanding and harbored one so-called innocent Negro in her living quarters at the time that white Southern gentlemen started mob riots to lynch him. One sly twist in the picture which was naturally meant to discredit our young Americans in uniform in our 7th Army in Europe, was to point out that the two evil gentlemen of the South in the picture were reserve officers in the American Army! Which of our many agencies overseas, working allegedly to defend our position in the free world, actually came to our defense?...The answer is none of them did. However, the State Dept. published "Neue Zeitung" newspaper recommended seeing the picture as did also the "Amerika Haus" programs, which described the picture as being "artistic; dynamic and colorful."
